

I have enjoyed my XM radio that my family gave me as a Christmas present last year very much. I commute to work 104 miles a day and XM gives me everything that I need at the touch of a button. FM radio has turned into talk radio and I simply do not get the music, news and traffic information from them promptly. Please do not stand in the way of XM due to these lobbyists. I am sure that AM radio did not like FM when it was new, now they want to stop XM from doing what they did.

Thanks for your time.

Clinton Willis
